SUSTAINABILITY REPORT

2024

OUR MISSION

At TET, sustainability isn't just a buzzword – it's at the core of our values. We firmly believe that a successful business should not come at the expense of our planet or the well-being of future generations.

This commitment is what drives us to make a meaningful impact.

SUSTAINABILITY SCOPES

The three sustainability scopes refer to the different categories or levels of greenhouse gas emissions associated with an organisation's activities.

01

Scope 1 emissions include direct greenhouse gas emissions that result from sources that are owned or controlled by the reporting organisation.

02

Scope 2 emissions encompass indirect greenhouse gas emissions that result from the generation of purchased or acquired electricity, steam, heating, or cooling consumed by the reporting organisation.

03

Scope 3 emissions include all other indirect greenhouse gas emissions that occur in the value chain of the reporting organisation, including both upstream and downstream activities.
